

**For Immediate Release Feb 15, 2018**

**Public Invited to Brock St. Culvert Information Centre**

*Event takes place Feb 28<sup>th</sup>, at 7:00pm at the Seniors' Centre*

The Brock St. culvert carrying the Uxbridge Brook underneath downtown Brock St. is due to be replaced. Construction is expected to begin in the summer of 2018. The Township of Uxbridge and its engineering partners have been working for many months on the construction and engineering plans. These plans will be available for public viewing on Feb 28<sup>th</sup> at a Public Information Centre (PIC).

The PIC takes place at the Seniors' Centre, 75 Marietta St. in Uxbridge on Wednesday Feb 28<sup>th</sup>. Representatives from the Township of Uxbridge, AECOM engineering, and the BIA will be on hand to answer questions and discuss the project. Participants who wish to attend can drop-in to the PIC between 7:00pm and 9:00pm. This is an informal event and no presentations will be made.

Major construction plans and drawings are completed in stages, with decisions at each stage used to create more detailed plans and drawings in the next stage. The planning completed to date is sufficient to provide information about the impact of the construction on neighbouring buildings, stores, traffic routing, road access and parking lots.

Any questions regarding the project or the PIC can be addressed to:
